Koji Tanaka

678-427-2521 • mr.koji.tanaka@gmail.com

EDUCATION

Johns Creek High school **Expected Graduation 2028**

- GPA: 96.156
- Relevant Courses: Introduction to Software Technology; AP Computer Science Principles/CS50

SKILLS/LANGUAGES

- Programming languages: JavaScript, TypeScript, Python, SQL, C, HTML, CSS
- Frontend: React, Tailwind CSS, TanStack Table, TanStack Query, Zustand; Backend: REST APIs
- Tools: GitHub, Cloudflare, Arduino, ESP32
- Languages Spoken: English (Fluent), Japanese (Fluent)

EXPERIENCE

Independent Computer Science Projects **July 2023–Present**

Student Developer

- Developed full-stack web applications using React, TypeScript, Next.js, Tailwind CSS, Python, and SQL, focusing on modern frontend architecture and scalable application design
- Created a language-learning website for an FBLA competition, qualifying for the national level

Computer Science Coursework Projects **August 2024 – Present**

Present Student Programmer

- Program in Python and C through in-class assignments and structured projects
- Implement data structures including arrays, singly and doubly linked lists, hash tables, and tries’
- Apply data structures and algorithms to solve problem-solving and efficiency challenges

Engineering & Hardware Projects **July 2023**

- Designed and built an Arduino-based radar system using sensors to detect and display object distance
- Created Arduino text and graphic display systems using OLED and LCD screens
- Built a voice-assistant-style project inspired by Alexa, handling design and implementation using Arduino and
- esp32 micro-computers

Rox AI Product Engineer Intern **June 2026**

- Developed production features for a React and TypeScript web application using Tailwind CSS, TanStack Table, TanStack Query, Zustand, and REST APIs
- Revamped a production customer-facing page that was later adopted by Verkada.
- Implemented server-side search, filtering, and sorting while debugging and improving production code for performance and scalability

EXTRACURRICULAR

Future Business Leaders of America (FBLA) **August 2024 - Present**

Competitive Member/Officer

- Earned 1st place at the State Leadership Conference (SLC) in Computer Problem Solving, qualifying for the national level
- Earned 2nd place at the State Leadership Conference (SLC) in Website Design, qualifying for the national level

Hack Club **August 2024 - Present**

Competitive Member/Officer

- Worked on AI and machine learning related projects
- Developed a prototype smart voice AI assistants
